## ABOUT
PROGRAMME

Quick Heal Academy introduces Cyber Security Professional course which entails the evolution of Information Technology. This programme provides the initial stage of learning the concepts of Cyber Security. This programme provides an understanding of the cyber security domain and the initial learning platform to become a Cyber Security Professional. A Cyber Security professional understands and knows how to look for weaknesses and vulnerabilities in target systems and uses the same knowledge and tools as a malicious hacker but in a lawful and legitimate manner.

The ultimate aim of this programme is to bridge the gap between the knowledge of books and practical knowledge. The experience gained and knowledge acquired through hands-on training, a cybersecurity professional could be made ready for the Cyber Security Industry. This particular course gives a holistic understanding of Cybersecurity landscape.

ABOUT QUICK HEAL ACADEMY

Quick Heal Academy (a division of Quick Heal Technologies Limited) is a premier institute engaged in supporting and securing the cyberspace. QHA is committed towards imparting cyber security education programmes globally with an objective of building a talent pool of cyber security professionals.
